## S M C President's message

Dear Parents and students,

When I enquired about school magazine, Principal mentioned that this year we are going for class magazines, to increase the participation chances. I am happy with that idea and encouraged him to do so.

School magazine / Class magazine is always a very interesting piece of work created by our upcoming talented students.

Magazines develop the student's power of thinking and strengthen their imagination. In this way the general knowledge of the student's increases and they acquire the habit of reading and writing. School and class magazines also teach the students the value of co-operation and encourage healthy competition.

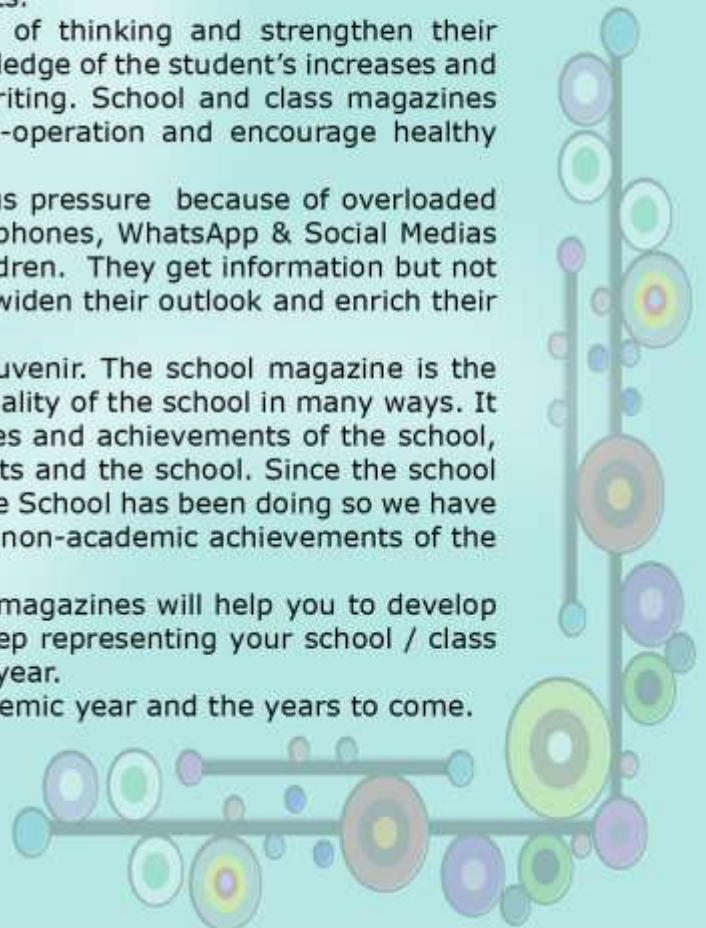

I feel that students are under tremendous pressure because of overloaded information. Television, Internet, Mobile phones, WhatsApp & Social Medias are snatching valuable time from our children. They get information but not retainable knowledge. Reading habit will widen their outlook and enrich their knowledge.

Our School magazine is not merely a souvenir. The school magazine is the face of the school and displays the personality of the school in many ways. It gives an articulate briefing of the activities and achievements of the school, thus building a bridge between the parents and the school. Since the school cannot inform about every activity that the School has been doing so we have our magazines. It includes academic and non-academic achievements of the school.

Finally I would like to say school / Class magazines will help you to develop your skills in your fields of interest so keep representing your school / class magazines and improve yourself year by year.

I wish you all a great success in this academic year and the years to come.

## Principal's message

Dear students,  
Warm greetings to you.

I was double minded, whether to publish the school magazine this year or not, but finally I decided to publish it because of the confidence that I have on you and my staff. Moreover this time we have gone for class wise magazines. The reason behind this move is to give wide opportunity to express yourselves in your own way. I am sure, our magazine will certainly turn into yet another piece of wonderful work form team ISAB.

When we come across difficult times, certainly we learn something new. In this COVID-19 pandemic situation we are all forced to stay, most of our time, indoors. After gone through your articles, for your class magazine, I realized that pandemics may force us to stay indoors physically but no pandemic can dent our confidence and imagination. This is one of the many things that I have learnt from this pandemic.

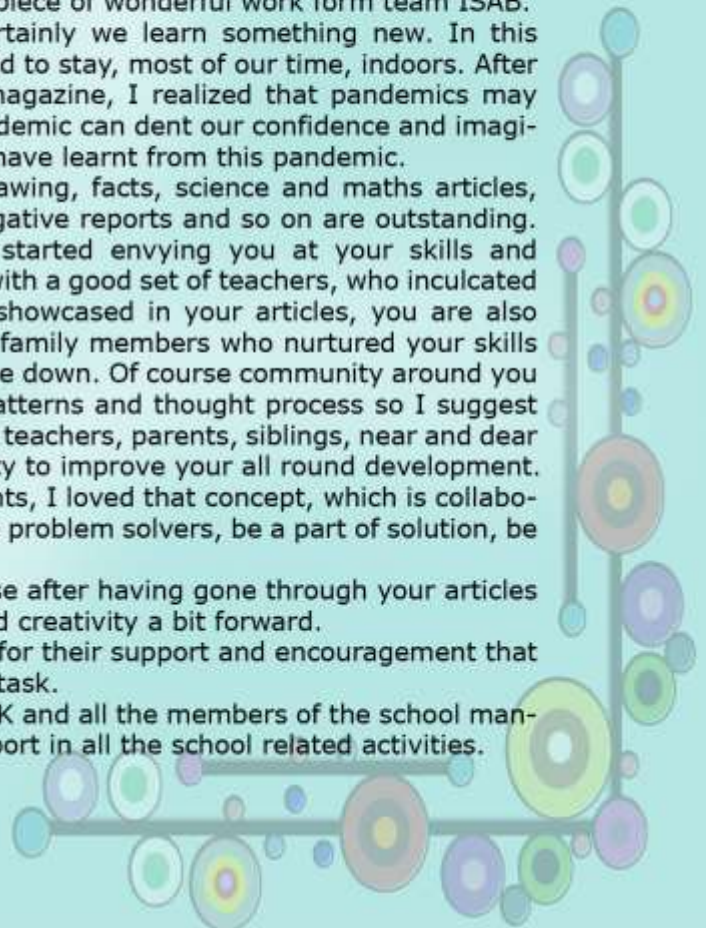

I found your poetic expressions, creative drawing, facts, science and maths articles, quizzes and crosswords, travelogues, investigative reports and so on are outstanding. After having gone through your articles I started envying you at your skills and thoughts. I proudly say that you are blessed with a good set of teachers, who inculcated all the skills and thought process that you showcased in your articles, you are also blessed with wonderful parents, siblings and family members who nurtured your skills carefully and supporting you whenever you are down. Of course community around you plays an important role in your behavioral patterns and thought process so I suggest you to keep a good balance of interaction with teachers, parents, siblings, near and dear and careful observation about your community to improve your all round development. I found some articles attributed to two students, I loved that concept, which is collaboration. Dear students, be positive thinkers, be problem solvers, be a part of solution, be optimistic, be critical best of all be humane.

I would like to thank each one of you, because after having gone through your articles I pushed the limits of my thought process and creativity a bit forward.

I would like to thank each and every teacher for their support and encouragement that they have given to you in accomplishing this task.

I would like to thank President Mr. Shaheen K.K and all the members of the school management committee for their continuous support in all the school related activities.

## *Class Teacher's message*

Dear reader,

"If you can dream it, you can do it," said Walt Disney. This magazine is a small proof of young transcendent capabilities. It displays how modern and artistic minds can do miracles. We aspired to manifest our kids' creativity to the world, and hope we have accomplished that small dream by loading their budding imaginations in these blank pages and turning it into colourful and mesmerizing ones.

It is my privilege to present you all the modern creativity, 'CHICKS WALK' Grade 1 E-magazine 2020-21. I hope you all enjoy every moment of reading and also take some good values from it. Furthermore, I would like to express my heartfelt gratitude to all the people who had worked energetically for the birth of 'CHICKS WALK.'

Happy reading!

With regards

# SOMEONE'S TRASH IS OTHERS TREASURE

I like art and craft very much, which makes my free time useful, busy and fun. In my routine life I started dumping many of my used items into the trash. 'A spark is enough to light up a candle' like the same, I got a spark in my mind to reuse some of my used items as a creative one.

Some of my innovatives are as follows

- ❖ I collected some waste pista shells from my home to create a beautiful flower frame.

## SOMEONE'S TRASH IS OTHERS TREASURE

- ❖ The waste pencil shavings are used to shape a lovely heart.

- ❖ I designed a paper dress for my doll with some pieces of colour and glitter papers to make my doll gorgeous.

## SOMEONE'S TRASH IS OTHERS TREASURE

- ❖ Most of the time we throw cardboard boxes but I made those boxes as colourful storage item to keep my playing toys in our play area.

*"I hope some of my innovative transforms may spark your mind to find a lot more..."*

# MY THOUGHTS AND WORRIES

Those golden memories of my school.....  
Will I ever get back?  
My beloved teachers.....  
Will I ever see them face to face?

My playful buddies .....  
Will I ever get another chance to fight and play with them?  
I miss my classroom, those chairs and desks.....  
Will I ever see it again?

How quick the things have changed.....  
A small 'VIRUS', that changing the world.....  
It buried my dreams  
Will I ever get those happiest days again?  
Together we can pray and hope for a better tomorrow.....

# THE STAR AND THE GIRL

Once, there were a star and a moon. They both were best friends. One day, a shooting star hit to this star. It started to fall to the ground and a small girl found it. The star missed her friends and it cried. Then the girl sang a song for it. Now, it felt much better. Next, it explained the girl that what had happened in the sky? And how it fell down? After hearing sad story of it the girl said, "I will give you back to the moon." She asked with her father to give a rocket that she could help the star to find its best friend. The father gave and they flew into the space. It was getting dark so, she switched on the light. When they saw out all the stars were twinkling. They also saw all the planets and finally they found the moon. The girl gave the star back to the moon .The star was happy and the moon was happy too.

## A HAPPY CHILD

I have a red little house  
I am a happy child.  
I laugh and play the whole day long  
I hardly ever cry.

I have a tree, a green, green tree

And under it I often sit,

## **TODAY'S SAD REALITY**

We all live on the Earth. So, we have to keep our Earth in the same way like it was existed before. But my concern is, everything is changing so fast and getting modernized here that no one cares about the mother Earth. People are so mean to the nature that they are getting everything from it and in return they are cutting trees, contaminating and wasting the water and air. Sometimes, I do feel, are humans deserved to live on the Earth? So, first we should give respect to our mother Earth. We should save the nature by changing ourselves to protect us and future generations too. So, before change the world let us change ourselves and lead a happy and safe life on this beautiful Earth.
