INDIAN SCHOOL AL BURAIMI**

Mr. SHAHEEN K.K, SMC PRESIDENT

President's message

Dear students,
Greetings!

First of all let me congratulate you all for your wonderful articles in your class magazine. Class magazines always showcase the vibrant talents of the class. I am happy to see the talents exhibited by you in various kinds of articles. After having gone through the articles I sincerely feel school nurtured various talents in you. World is changing in a fast pace. In order to cope with the competition we need to acquire various skills so I suggest you that, whenever you get a chance to express yourselves please do not miss the opportunity. You may stumble in our initial efforts but ultimately you will reach to perfection. Class magazine is such an opportunity and you all utilized it in an efficient way and expressed yourselves in unique ways. I appreciate your efforts.

I thank all my colleagues in S.M.C for their constant support. I appreciate the Principal for his guidance and staff members for their hard work in bringing out the e-magazines. I deeply appreciate the efforts of parents who constantly supporting and encouraging their children to actively take part in school activities.

Regards

Principal's message

"Self-belief and hard work will always earn you success"

Dear parents and students,
Our goal is to continue to improve the quality of education we provide to our students.

The world of 21st century is changing at an accelerated scale. It is a challenge for educators to cope with the changing world and prepare their students for the future. It has rightly been said that "Children need to be taught how to think, not what to think."

In spite of all the challenges posed by the pandemic and the fast changing world, our school management is investing its time and efforts to inculcate creativity, critical thinking, innovation, divergent thinking along with proper values of life for its students. I witnessed the mentioned skills / qualities in our class wise e-magazines.

The creativity in children found "Expression" only because of strenuous efforts of the editorial board and the active participation of students, needless to say the committed and supportive management, dedicated and caring staff, cooperative parents who worked in the back screen to bring out the best in children.

I thank President and members of the School management committee, parents, staff and students for the support extended to bring our e-magazines on screens.

Regards
Principal

Class teacher's message

Dear all,

“All our dreams can come true, if we have the courage to pursue them” – Walt Disney

What can we do to make our dreams come true in real life? Think! In order to achieve something, we need a goal. In today's world nothing is impossible. Children today have many opportunities throughout their lives. It is important to make use of those opportunities and learn as much as you can.

Technology has brought a lot of change to everyone's lives, especially students. Utilizing technology, the primary challenge is to encourage only positive ideas and thoughts out of mixed ideas and cultures. Stay optimistic and positive throughout your lifetime.

My sincere gratitude goes out to all the students who have contributed to making our class magazine successful this year. In the life of a student, it's vital to take part in every opportunity available to you.

Thank you.

THE DOG WHO SAVED ITS OWNER

A long time ago, in a beautiful village of Milan, lived a girl named Sarah. She was nine years old and loved animals. One day her mother asked her to chop some onions and then to get some carrots from the nearby shop. Sarah went out of her house, walked across the bridge and reached the shop. She bought some carrots, came back home, chopped the carrots and started watching TV. After some time her mother called her for dinner. The next day was her birthday and she was very excited. That evening she had lots of fun with her friends, they played. After the party was over every one left and Sarah started opening her gifts. The first one was from Monika, the second one from Alisha, the third one was from George and the last one was from Ria. 'Ting tong' the bell rangSarah opened the door and saw a box lying there with a letter stuck on it. She wondered who it would be. The letter was like this-

Dear Sarah,

How are u? Hope u are fine, I am sorry that I was not able to come for your birthday party but I do hope you would like my present which is inside the box.

Lots of love,
Grandfather.

After reading the letter, she happily opened the box and what did she see? To her astonishment it was a cute little puppy! It had black and white spots and had its eyes closed. She would play with the dog, feed it, and take it everywhere. 12 months passed by and the dog became an adult. Sarah was in 5th standard and one day her mother asked her to go give some cake and bread to her granny. Sarah asked "can I take my dog with me?" "Sure", her mother said "why not" and then she took her dog with her. After giving granny the cake and the bread, Sarah and her dog returned home. While crossing the road, Sarah didn't notice a car. Luckily, the dog noticed it and pulled her dress and dragged her to the footpath. Sarah was very happy to see her dog saving her life and told this to her mother. Her mother was very happy and proud.

A TRAVELOGUE - PONMUDI

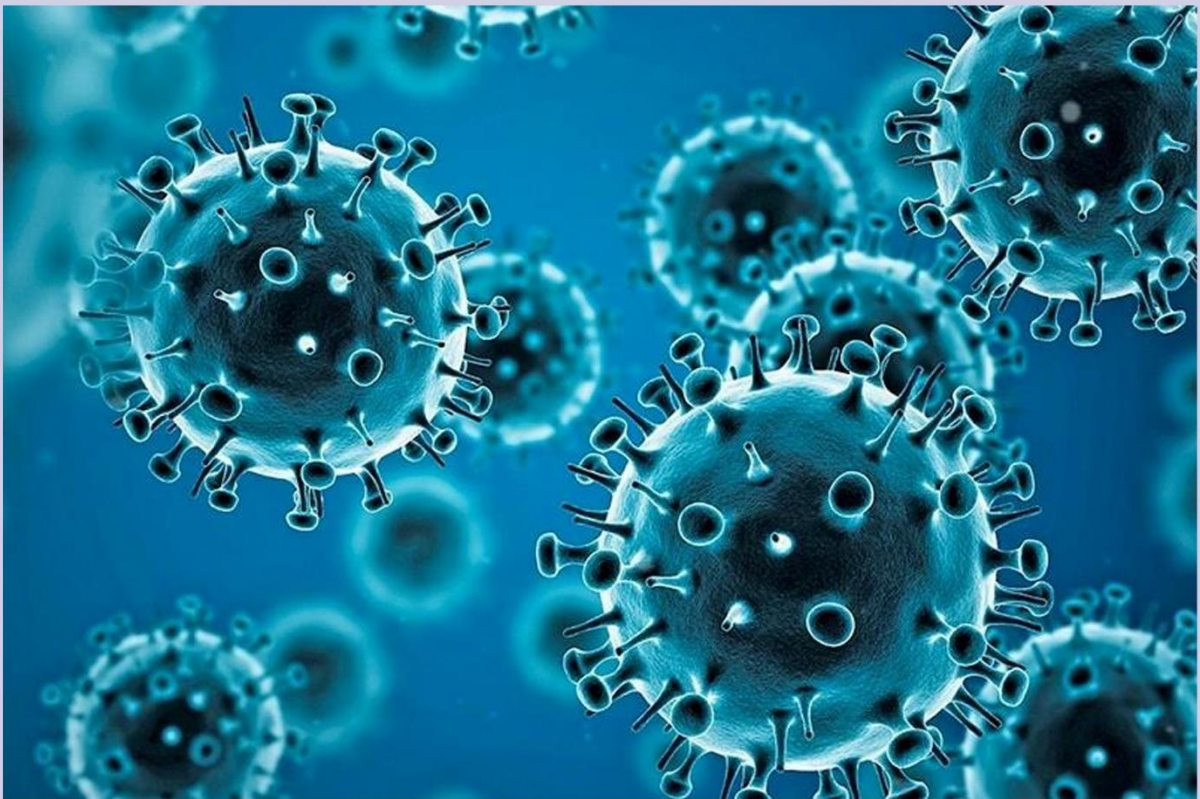

On September 3, 2021 we went for a picnic with my mother's family. It is a hill station called Ponmudi, located in Trivandrum, Kerala (India). It's a wonderful place. Ponmudi is an eco-tourism spot. We booked a super traveller for our picnic. To reach Ponmudi we had to go up on a high mountain. We were going round and round the hairpin bends. 22 hairpin bends were there. We could see some coffee shops on the road side while going to Ponmudi. We also saw some ladies selling the tea powder. Half of the way was a forest and the rest of the place was a tea estate. When we reached the mountain the fog started. We enjoyed the fog as well as the beautiful scenery . We travelled for around one hour before we reached the destination. When we looked around we could see the layered green mountains and rocky hills. We had taken our jackets because we expected a very cold weather. When we stood on the rock the fog would cover us and slowly go. When fog came, we felt mild rain water splashing on our hands. We stayed for around 2-3 hours. When the fog disappeared we could see beautiful green hills at a distance. Hope you all enjoyed my travelogue. It's indeed a beautiful place to visit with family and friends.

THIS TOO SHALL PASS...

We, humans, are amid a pandemic where our problems are high, the world is puzzledBut despite all obstacles still, the sun is shining, the clouds pouring, and the wind is blowing, an element of hope always remains in nature. Why are we humans who have immense potential by birth in despair? We should use this time to think positively and shape ourselves into even better creatures on this planet. It is time to test our resilience during an unprecedented period of the pandemic. We are capable of not only flying but touching the moon and other planets. It is the time to explore our unlimited possibilities. Nothing is permanent in this world. We have experienced many sorrows, failures and setbacks in our life. They all have passed away over a while. Let us rest assured that these days of trial and hardships caused by the pandemic will not last forever. Let us try to live in the present, understand it, experience it and face it with courage and intelligence. This too shall pass ...

MY MOTHER

Mom is a word so pure
Mom is a word that so pure
It's like a magic and allure
No one can replace you in life
No one can have that will to strive
You make sure that everyone smiles
You make sure each one stay happy
So many sacrifices that you make
You only live for others sake
Mom you are and will remain the best
In everything that you do
MOM so blessed to have you.....

IMPORTANCE OF EDUCATION

Education is a very powerful medium to grow in life and perceive something important in human life, education benefits a lot in decreasing the difficulties of a hard life. The expertise obtained through the education era encourages everyone regarding their life. Education is a way to enter into several doors for possibilities to obtain more real prospects in life to improve career growth. The government is also arranging various programmes to educate people about education and its benefits in our life, especially in rural areas. Education delivers knowledge of quality among everyone in society and encourages the growth and improvement of the nation.

NIGHT

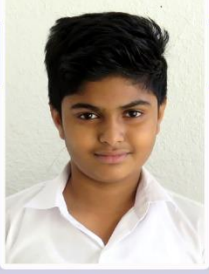

The sun sets,
The moon shines,
The stars twinkle.
It's getting dark,
The lights are off,
My fear is growing,
The light flickers on and off,
Causing scare.
I tried to sleep,
A good sleep,
It turns to be a dark sleep,
But it's still a sleep,
And then... I fell asleep...

NEUTRON STAR

A neutron star is the collapsed core of a massive supergiant star, which had a total mass of between 10 and 25 solar masses. Neutron stars have a radius on the order of 10 kilometers (6.2 mi) and a mass of about 1.4 solar masses. They result from the supernova explosion of a massive star, combined with gravitational collapse, that compresses the core past white dwarf star density to that of atomic nuclei.

Neutron stars have four basic properties: a small diameter, high density, strong gravity, and strong magnetic field. Neutron stars are only several kilometers in diameter, often no more than the size of a city. They are at least forty percent more massive than our Sun

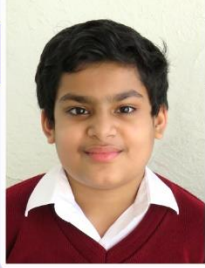

Neutron stars are formed when a massive star runs out of fuel and collapses. The very central region of the star – the core – collapses, crushing together every proton and electron into a neutron. If the core of the collapsing star is between about 1 and 3 solar masses, these newly created neutrons can stop the collapse, leaving behind a neutron star.

TIME

Time is like a stream,
Fast moving and like a dream.
Some have it in surplus
Others don't find it sufficient.
Time is like a thunder,
Unstoppable and like a wonder.
It can neither be regained
Nor can it be created.
Time is like a boon,
Shining brightly like the moon.
The right time is always now
Use it to reap the success you sow.
Victory is very near,
For those who waste time never.
Don't wait for years
This time is all yours!
